MEMORANDUM

TO: Craig Tarpenning
Office of Administrative Law

FROM: Amy J. Whiting
Regulations Coordinator, BARCU

DATE: September 8, 2005

SUBJECT: OAL Regulatory Action Number 05-0729-03S

Pursuant to your findings in review of the above-referenced Rulemaking, the Air Resources Board (ARB) hereby authorizes you to correct the rulemaking record as follows:

1. Substitute the attached revised "Final Regulation Order" behind each copy of the Form 400 (seven copies provided). The revision makes nonsubstantive changes to the regulation text.
2. Add as an attachment to the Final Regulation Order the enclosed *NFPA 25 Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems*, 1998 Edition, which is the document incorporated by reference that was inadvertently omitted from the record, for filing with the Secretary of State (seven copies provided).
3. Substitute the attached revised Certification of Mailing which corrects a typographical error in Tab 14 of the rulemaking file.
4. Substitute the enclosed revised rulemaking file Closing Certification statement to be attached to the table of contents at the beginning of the rulemaking file.
5. Substitute the attached Table of Contents which adds this memo to the record.

Thank you for your assistance with this matter. If you have any questions, please call me at 322-6533.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.
